(all other locations closed)
 - Monday – January 25th – Spring Term Starts

- Traditions update
- DSC Staff Member of the Week/Month

Nominations?

- Comments from students:
 - Recent music choices = excellent. Lack of pot stickers this semester = disappointing. Seriously, what happened to them? They were the best
 - Unfortunately Pot Stickers are a non-compliant item of Sodexo, we have switched to rotating more Dim Sum, Egg Rolls and Crab Rangoon.
 - I am a frequent diner at Eickhoff and I cannot begin to count the number of times I have received undercooked chicken. It is beginning to become a concern that someone will become sick. I sincerely hope you begin to take measures to ensure that this will not happen again.
 - If you ever feel your chicken or any other meat is not cooked properly please bring this to a manager's attention immediately. We can quickly asses the product and make sure it is at the appropriate temperature. We will review this issue with our staff.
 - Please Fix the hot chocolate machine
 - We are in the process of trying to bring a new machine into Eickhoff. We will have an update at the next meeting.
 - Pot Stickers! Where did they go? They're quick, I can eat a bunch before class and I know everyone including myself always asks for them. They're my favorite thing at Eick.
 - Unfortunately Pot Stickers are a non-compliant item of Sodexo, we have switched to rotating more Dim Sum, Egg Rolls and Crab Rangoon.
 - Sweet Potato Pie and Baked Ziti are needed.
 - We try to have a sweet potato at least once a week; we will take this suggestion under advisement to incorporate into our menus more often.

- Roscoe's tacos and more use to be my go-to place to get dinner if I didn't like what Quimby's was serving. This semester though, the ground beef/meat has changed to a different kind that doesn't taste nearly as good. It has peppers and onions in it which gives the meat a sweet/weird taste to it, not what taco/burrito meat should taste like. Please switch back to the old ground beef.
 - In the past we have used a premade meat product for the beef at Roscoe's. We have changed to making a fresh product which we make and season ourselves. We will speak to our chef about seasoning and following the recipe.
- The older white sandwich lady puts too many condiments on the sandwiches. For example, I got a sandwich on a Kaiser roll and I asked for honey mustard. The older sandwich lady put mustard on the inside of the first half and second half of the sandwich. There is no need for that much mustard on both sides of the sandwich. Please tell her to stop because it is a waste of mustard and it makes the bread soggy and inedible. I know a lot of other students who feel the same.
 - This issue will be addressed; we will also review how to properly build a sandwich with all managers and supervisors.

Open Forum:

- Can we get Hot Chocolate Packets since the machine is broken?
 - We try to stay away from packets since they can make a mess, however we will look into getting packets while the machine is under repair.
- Can the Kale be cut into smaller pieces?
 - We will speak with the chef to advise the Kale be cut smaller and without the spine.
- Is it possible to cook the veggies and meat in the sauce at the Wok?
 - Unfortunately the sugar content of the sauce would ruin the surface of the Wok.

- The Lion's Den recently had Mac and Cheese with a lot of pepper
 - We will review the recipe and make sure the amount of pepper being added is correct.
- Chanukah: The Lion's Den will feature specials from 12/7- 12/11 and Eickhoff will also feature special foods during breakfast lunch and dinner. Menu will be posted soon.
- Update: We have spoken with Pepsi to bring in Ginger Ale shortly.
- Spring Semester DSC Meetings TBD. Announcement to follow.
