 - We have added more snowshoe pizza in The Atrium at Eickhoff
 - Salad Bar
 - We have revamped the salad bar to include yogurt, cottage cheese and fresh fruit
 - **Next DSC Meeting February 24th!**

Open Forum:

- I noticed more fresh fruit options and sauce near the wok and Quimbys which is great! It's the little things that make a big difference.
- Please integrate fresh fruit in the c-store but keep some fruit in Eickhoff.
- The first week of class this semester there was no milk at the c-store
 - This may have been because of the blizzard. We now have milk at the c-store and at TDubs.
- TDubs is still using the same tongs in the bacon as the vegetables, this causes a problem for vegetarians and people who do not eat pork.
- Can we serve lunch at 10:30am when classes are done?

- Can the employees at the wok chop the broccoli better so the pieces aren't so large.
- Is it possible to integrate more syrup flavors? Or fresh fruit?
 - We will look into in-season fruit options as well as finding other options for a syrup container that still keeps the syrup warm.
- Is it possible to set up a live feed or monitor system so students can check the crowds and lines in Eickhoff before they decided to go to breakfast, lunch, or dinner?
- Health regulations have changed; we are no longer allowed to openly display fruit that has an exposed skin that you may eat. These fruit must be in a container. Some of our fruit selections have moved locations.
- Can we add K-Cups at the C-store?
 - We will look into this and see if we can add K-Cups to the c-store.
