- Comments from students
  - We would like chicken fried steak for dinner soon. It is a fan favorite for sure.
    - Response: We are going to pass this along to our chef and see if we can work it into the finals week schedule.
  - Why don't' you toss the pizzas for real? These presses are rather silly and tend, I've noticed, to inspire an absurd over-application of cooking spray. I don't want to eat that! They can handle as much traffic at a pizzeria!
    - Response: We cannot keep up with the amount of traffic to toss the pizzas. A pizzeria makes about 200 pizzas a day. We make that many pizzas in just a few hours during the lunch rush. We are going to monitor the amount of cooking spray they use but the press makes the process much faster.
  
- Open Forum:
  - Student Government
    - Thank you so much for the new chicken at the Student Center! We love it! It is really good and I really appreciate that you took our advice and made that change

- At the Rat some of my friends went around 2:30 and were told there was too many of them to be served at the bar. They were told to then go to a table. After waiting a few minutes they were told they were in the wrong section. They moved and still weren't seen for a few minutes only to be told that they needed to move again. It was about 30 minutes before they place their order after they walked in. They also had a hard time getting their credit cards back because the wait staff was just walking around with them.
  - Response: We are going to be looking into this because this is terrible customer service. We are very sorry that this happened.
- Sushi in the Lion's Den is amazing! We were hesitant about the price but it is so worth it and you get your money's worth!
- Reese's pieces pie at the education café is amazing. Can we get it in earlier next year?
  - Meghann: We can see what we can do!
