- Comments from students
  - I do not usually do this, but I thought that this was important enough for me to contact you about. Almost every day I go to the Education Cafe for meal equiv, for being an education major, it is the most convenient location. I do not mind going to the library or other facilities, but Ms. Dreama Darden makes going to the education cafe a wonderful experience. She never fails to make her customers feel welcome and she always has on a smile. Dreama has memorized many orders that her regular customers usually get, showing that she is not only dedicated, but that she cares, and she is 100% sweet 100% of the time. I think she really makes TCNJ's campus much brighter, for although she has a difficult job, she never fails to do it accurately and kindly. I wanted to thank you for hiring her, for I honestly believe she is one of your best employees and makes the stress of meal equiv 10000000x better!
  - The friendly acts of Eve certainly make an impact on my mood. She makes a positive impact on TCNJ and the student body. Great job Eve! Your smile makes the world shine ☺
  - Eve is the friendliest and best employee. She is so welcoming and makes every experience a good one! She always has a smile on her face and looks like she loves being here. Thank you!
  - Eve you're great!
  - I love Eve! She is the best! Very friendly and welcoming others!
  - Every time Eve swipes people in she is so happy and positive. She always wishes me a good meal and nice day and it really makes a difference. I love Eve! ☺
  - Eve, You always have such a positive and welcoming attitude that makes every experience at Eick more enjoyable. So many students recognize how wonderful you are and we all appreciate how much you care. Amazing Job!
  - Suggestions: 1. High protein, low-sugar yogurt. 2. The vegetables on theme nights are always delicious- healthy and flavorful. The typical cooked vegetables at Quimby's and Rotisserie are often bland. More grilled and seasoned vegetables like asparagus and Brussels sprouts would be great. And otherwise more interesting and strongly flavored vegetables would be great too.
  - Charge an even dollar amount for all of the people who pay cash. The whole line keeps getting held up because the cashier needs to break out the coins. It isn't worth holding the whole line up during rush hour for an extra 31cents.

    - I visited MyZone today and I had some of the best food ever! There was a student there helping me and he said that this year has been by far the best year in terms of the freshly made items being available.
    - Please refill the paper towel and soap dispenser over there and take a look at the microwave since some buttons aren't working properly.

    - Please make sure that the 1855 menus are matching to what is available online.
    - In the 1855 room there has been some over cooked vegetables. They were very tough and where cut into very small pieces.
