- Feedback from the Senior Class Dinner and Fair
- Comments from students
 - Hello, I have some suggestions for the grill station in Eickhoff.
 - Firstly, if you could make tuna and or salmon burgers an option or at least a special.
 - *We will be looking into having this a special.*
 - Having additional sides such as onion rings and sweet potato fries on a regular basis
 - *We unfortunately cannot have these items on a daily basis but will look into having the onion rings as a special. We need to make sure that the items we offer on a daily basis are carried out to 100%. You can find sweet potato fries at Quimby's during the month.*
 - Adding hot dogs as a daily option and if not possible please ensure that hot dogs do not run out by dinner.
 - *For the same reasoning above, we cannot have hot dogs on a daily basis but will make sure not to run out when it is on special.*

- Alasha was working at the sandwich station and was extremely helpful. While eating she even came up and made sure everything was made/ tasted great. Great customer service and energy! ☺
 - *Response: We will pass that information on to our management staff and make sure that Alasha gets an exceptional experience card! Thanks so much!*
- The attendant, Eve, who works the card swipe, is amazing! She never ever fails to smile and wish me and all who pass by a great day and best of luck! She deserves some recognition for her optimism and kindness.
 - *Response: We will pass that information on to our management staff and make sure that Eve gets an exceptional experience card! Thanks so much!*
- I think Eick has good variety, great food and friendly staff. With that said, I hope that Eick stops putting plastic wrap over HOT food and starts using aluminum foil. I do not think it is safe for the students to have hot plastic touching food that they will eat. Thank you.
 - *Response: The plastic wrap that we use is food safe. We follow all food safety rules and regulations. The plastic does not melt into your food and the only way to melt the plastic is to stick it in a deep fryer. If we were to put aluminum foil over the food any acetic food would actually cause a chemical reaction and the aluminum foil would become one with your food.*
- Hello TCNJ Dining, It would greatly be appreciated if you could kindly put those green chili peppers at T-Dubs in the Eickhoff Salad bar. They are delicious and add a way for students to get both vitamin A, C, K and F in their diets, along with an interesting and exotic variety. Thank you!
 - *Response: We can rotate the banana peppers onto the salad station. Keep an eye out!*
- Open Forum:
 - Eric
 - We will be offering freshly rolled sushi now in T-Dubs every Saturday night from 6-9pm
 - George:
 - Zebi is now officially open! We have breakfast and lunch sandwiches, soups and mac and cheese!
 - Sam:
 - T-Dubs was out of grilled chicken the other day. Can you please look into this? They also said they didn't have any turkey burgers. In the C-store can you please order more frozen fruits?

- Chef George is going to look into the T-Dubs issues and have them addressed right away. Alison is going to place a bigger order of the frozen fruit so they don't run out as quickly.
- Monique:
 - There were no eggs in the Lion's Den today.
 - Eric is going to look into this.
- Brian (SG)
 - Less oatmeal raisin cookies in Eickhoff please. The Honey Mustard in Eickhoff runs low at dinner time. Chicken on the grill in Eickhoff takes twice as long as the burgers, can we butterfly them so it goes faster?
 - We will speak to the bakery team and see if we can do less oatmeal raisin cookies. We are going to move the extra honey mustard that is in the C-store to Eickhoff. The chicken we cannot butterfly because of the amount of time it would take to prepare. All of our chicken comes in already cut and it would double the time to cut it.
- Matt: (Sophomore Class Council)
 - At the wok I noticed that they were not taking the protein for your vegetables because they were told it could not sit out from the ice that long. This made the process for the wok twice as long, can we change this back?
 - Brian addressed this issue and how we were doing it was correct. We will go back to the way we did it before.
