## Grubhub Ordering Tips

You can use Campus Grubhub to order food from every University Dining location AND you can use your EagleOne accounts or credit cards to buy meals. Problems with using faculty and staff EagleOne accounts for payment have been fixed!

To Access UMW Grubhub: Sign into your Grubhub account, or download the app and create an account. Go to the gear icon and select "Campus Dining". Choose UMW and then enter your method of payment information: credit or EagleOne. Now you're ready to place an order!

Placing Orders: If you don't have a campus meal plan, choose the regular menu offered at each location. The "meal plan", "Meal Deal", or "Single Swipe" menus are only for those with meal plans. Orders from retail dining shoppes are received and prepared in "real time". You'll get text messages letting you know the status of your order and when it will be ready to pick up.

Placing Orders at the Top of the UC: Last fall these orders had to be placed the day before you wanted to do the pick up. That has changed! Now you can place lunch orders up until 8 am and dinner orders up until 5 pm on the day you plan to pick up your Top of the UC meal. You will not get text messages giving you the status of your order. Your order will be ready at the exact pick-up time you selected. You might get a prompt saying your order will be ready in 3 minutes. Disregard that prompt! It is something Grubhub is unable to remove from their system.

Order Pick-Ups: Every retail dining shoppe has an express Grubhub pick-up line. Just go to that line, give them your name, grab your food and go! For Top of the UC orders simply come to the first floor of the UC and follow the signs to the Grubhub pick-up window, where a host will give you your meal.

*\*Always check your order before leaving and let the server know if anything isn't right or if anything is missing so they can fix it for you!*
