

# We made the DEAN'S LIST!

University of Mary Washington Dining was named to PETA's "Dean's List" in March of 2020. This is an elite group of colleges and universities that have accrued enough Vegan Report Card points to rank on the highest tier of A-rated schools! According to their web site, schools on the "Dean's List" are the “vanguard when it comes to vegan cuisine on campuses!” University Dining is extremely proud of the wonderful work that our culinary team has done to promote plant-forward dining here at UMW.
